Center for Bio-mediated and Bio-inspired Geotechnics (CBBG) 
Summer REU Program

We are seeking innovative, sustainability-minded, engineering and science undergraduates to participate in a paid summer program. This program will immerse participants in technical research and expose them to the graduate school experience, specifically within the scope of the CBBG: to develop sustainable biologically-controlled and biologically-inspired solutions in hazard mitigation, environmental protection and restoration, infrastructure construction, and resource development.

Program Dates
ASU/GT/NMSU Programs (May 21 – July 27) | UCD Program (June 11 – August 17)

Program Benefits
Stipend | Airfare | On-Campus Housing | Merit-Based Invitation to Participate in Annual NSF CBBG October Meeting

Program Eligibility
- U.S. citizen or permanent resident
- Must be planning to enroll as a sophomore, junior, or senior college-level student in Fall
- Attend U.S. community college, college, or non-CBBG university
- Participants are prohibited from taking courses or working while participating in the program
- Ability to work 40 hours per week for the entire program
- Students with disabilities, veterans, and those from traditionally underrepresented groups are encouraged to apply

Program Application
Submit the following by March 6, 2018:
1. Online application: https://form.jotform.com/CBBG/REU2018
2. Unofficial transcript(s) from all undergraduate institutions attended
3. Letter of recommendation from a faculty member
